Bootcamp Grad, SOFTWARE ENGINEER

Rising software engineer with experience in **Python (Full-stack) and MERN**. Self-starter, fast-learner, and strong communicator. In bootcamp, I learned two full stacks which demonstrates my capacity to learn new technologies quickly.

Core Competencies

- ✓ HTML, CSS, JavaScript
- ✓ RESTful APIs
- ✓ Object-Oriented Programming
- ✓ Python
- ✓ MySQL
- ✓ Flask
- ✓ React.js
- ✓ MongoDB
- ✓ Node.js

EDUCATION

Bachelor of Engineering – Civil and Environmental Engineering, Mississippi State University   Starkville, MS

PROFESSIONAL EXPERIENCE

[Dec, 2021] – [Present]   **Coding Dojo Bootcamp**   Austin, TX

Student

- Learned Web Fundamentals (HTML, CSS, JavaScript)
  - Built webpages based on wireframes.
  - Added vanilla JavaScript functionality.
- Learned Python (Full-stack: Python, MySQL, Flask)
  - Built several CRUD websites using MVC model.
  - Built a personal blogging site that includes user login/registration and validations. The blog also pulls data from Medium.com's API and displays my most recent posts.
- Learned MERN (Full-stack: MongoDB, Express.js, React.js, Node.js)
  - Built functional-component based websites.

[June, 2016] – [Nov, 2018] **VAAM LLC**   Starkville, MS

Co-Founder, CEO

- Experienced entire software development process from initialization to production
- Designed Entire UI for the mobile app
- Got exposed to Firebase back-end
- Taught myself JavaScript basics
- Created graphical representations of collected data from market research
